VISA & Tibet travel permits

Due to the current regulation, you need a special permit to visit Tibet Autonomous Region. The only thing you need to worry about is sending us clear scan of your travel documents **25-30 in advance**. We will do the rest.

Application process depends on your entry point:

From mainland CHINA

We need clear scan copy of your passport and visa.

If you are entering Tibet by plane from mainland China, you will need the original permit. We will sent it to any address in China that you wish, be it your hotel or a friend's house. If you are arriving by train, you will only need a photocopy of the permit.

From NEPAL

We need clear scan copy of your passport.

If you want to enter Tibet from Nepal, chinese visa must be applied in Nepal. You must be sure about your itinerary as your visa will only permit you to stay for this set number of days. It cannot be extended later on when you are in Tibet. The visa that you will get is a group visa for all the people on the tour and it cannot be separated.

When we have a photocopy of your passport and itinerary, we will send a visa application to the chinese embassy in Nepal. Once you arrive to Kathmandu, our partner travel agency at Nepal will go to the chinese embassy to get the visa with your original passport.

Bear in mind that the we need at least two working days to be able to get you visa and it costs 150 USD for non-USA passport holders.

We can help with any services you might need in Nepal. Please, contact us.
